August 24, 2023

Wiscasset, ME: Coastal Maine Regional Broadband (CMRB), a regional partner of the Maine Connectivity Authority, has partnered with the Rockland and Thomaston Public Libraries to help improve the digital landscape and encourage digital equity for residents of Knox County.

CMRB has awarded each library a grant of \$2000. The Rockland Library plans to upgrade wi-fi access. The Thomaston Library will be purchasing new printers and wireless links for public use. Rockland Public Library is located at 80 Union St. in Rockland. The Thomaston Library can be found at 60 Main St. in Thomaston. For hours and contact information please check out each of their websites at: [www.rocklandlibrary.org/](http://www.rocklandlibrary.org/) or [www.thomaston.lib.me.us/](http://www.thomaston.lib.me.us/)

CMRB strives to make digital access a reality for people across coastal Maine, by promoting full broadband connectivity and affordability to homes and businesses, uniting people with the devices needed to connect, and encouraging training to build skills for all ages. CMRB serves the Midcoast region across Knox, Lincoln and Sagadahoc counties.

CMRB offers both digital resources and broadband infrastructure planning to communities in Lincoln, Knox, and Sagadahoc Counties. To learn more about Coastal Maine Regional Broadband visit their website at [CMRB.me](http://CMRB.me)

Amy Levine, Director, Rockland Library receiving the grant award from Brandon Look, Digital Planner, Coastal Maine Regional Broadband.

Caroline Ward-Nesbit, Director, Thomaston Library receiving the grant award from Brandon Look, Digital Planner, Coastal Maine Regional Broadband.
